

## Fact Sheet: PMP® Project Management Professional

### Description:

About Project management, then, is the application of knowledge, skills and techniques to execute projects effectively and efficiently. It's a strategic competency for organizations, enabling them to tie project results to business goals — and thus, better compete in their markets. It has always been practiced informally, but began to emerge as a distinct profession in the mid-20th century.

PMI's A Guide to the Project Management Body of Knowledge (PMBOK® Guide) identifies its recurring elements: Project management processes fall into five groups:

- Initiating
- Planning
- Executing
- Monitoring and Controlling
- Closing

### Course Objectives:

This four-day workshop prepares industry professionals aspiring for PMP® certification exam from PMI, USA. This program helps the participants to understand structured project management methodology from PMI and empowers them to manage their projects successfully. Best practices of managing international projects across various domains are discussed in detail to ensure that the participants are confident in managing various situations on day-to-day projects.

This Classroom course is aimed at people who work, or would like to work, on projects on a daily basis and would like to achieve the PMP® Certification. More specifically, this course is for project managers who want to master the Project Management Body Of Knowledge (PMBOK®) and improve their skills in managing projects.

The iCert Global approach to project management education is application driven. You will be immersed in project management through use of a comprehensive case study, exercises and examples. At the end of this program, you will be able to pass the exam and at the same time know how to use PMBOK® in practice as a project management professional.

This program contains 14 highly interactive and modular course units. The course is enriched with engaging questions from real-life project situations. Through a series of sample-exam questions you will be optimally prepared to take and pass the exam.
